## Profile

I am a committed front-end developer and web designer with a high degree of expertise in web standards and semantic markup with a concentration on strong visual design and intelligent user interfaces. I'm a keen observer of the way things look and work, and how they make us feel. My designs are strongly influenced by these observations with a special eye toward the natural aesthetic creating websites and design that are motivating and effective.

I bring to the table nine years experience in Web Site Design and Development and I specialize in front-end web development – Web and UI Design coded using XHTML/CSS and Javascript. I strive to use logically structured XHTML, tableless design and seamless CSS markup for quicker load times, clean layouts and accessibility while creating the most representative design.

## Professional Experience

### **Deluxe Corporation**

Shoreview, MN - September 2009 to Present

Part of the User Experience team preparing and releasing the October 2009 re-launch of the Bags and Bows website. Responsible for XHTML and CSS production and worked closely with the Development team to troubleshoot and solve rendering and styling issues. Also provided rapid Design and User Interface assistance under very tight timelines to complete the project in the shortest amount of time possible.

### **Web Designer/Front-End Web Developer, 26 Tigers Design**

St. Cloud, MN - 2005 to Present

26 Tigers Design started in June of 2005 to provide an official outlet to the many requests I was receiving for contract work. As a self-employed design and web development professional I have broad experiences in graphic, visual, web, user interface, and interaction design. 26 Tigers Design provides services that range from complete web sites, web design, web templates, e-commerce and ExpressionEngine CMS integration. Additionally, my skills include brand identity, logo creation and print design.

### **Web Designer, New Boundary Technologies**

Minneapolis, MN - 1998-2005

In-house web designer and developer. Lead designer on numerous projects including both web and offline multimedia projects. Icon and application user interface design and development.

### **Kavouras, Inc.**

Burnsville, MN - 1996-1998

Forecast Meteorologist and Trainer: Created maps and forecast graphics for aviation and television industries. Trained on-air television talent how to use Kavouras proprietary hardware, software and if needed, basic forecasting skills.

## Education

**St. Cloud State University** - St. Cloud, Minnesota - 1990 - 1996

Bachelor of Science - Meteorology

Bachelor of Science - Aviation, Flight Operations
